Professional Summary

Detail-oriented Full-stack developer with 1.5+ years of hands-on experience in designing, developing, and deploying scalable web and mobile applications. Skilled in full-stack development, problem solving, and collaborating within agile teams to deliver high-quality software solutions. Strong foundation in React/Next.js, React Native, Node.js, n8n automation, Chatbot integration, Web Scarping, Socket Programming and MongoDB/SQL/PostgreSQL. Seeking to contribute technical expertise and innovative solutions to a forward-thinking organization.

Technical Skills

- Languages: JavaScript (ES6+), TypeScript, SQL
- Frameworks & Libraries: React, React Native, Node.js, Express.js, Redux Toolkit
- Databases: MongoDB, SQL Server, MySQL, PostgreSQL
- Tools & Platforms: Git, GitHub, Docker, Visual Studio, VS Code, Postman, n8n, Chatbots
- Concepts: REST APIs, MVC, OOP, Data Structures & Algorithms, Agile/Scrum

Professional Experience

Full Stack Developer | [Brainscraft Technologies]

📍 Rawalpindi, Pakistan | 📅 July 2025 – Present

- Built and maintained React.js web applications with responsive UI/UX and efficient state management.
- Developed and integrated REST APIs using Node.js/Express improving system performance by 25%.
- Implemented real-time chatbot agent for interview hints in Skilltrends - Ai Jobs interview (OpenAI, stripe).
- Collaborated with cross-functional teams in an Agile environment, participating in sprint planning and code reviews.

- Deployed applications on cloud platforms (Vercel/Heroku) ensuring scalability, monitoring, and continuous integration with GitHub Actions.

Mern Stack Developer | [Velinno]

📍 Rawalpindi, Pakistan | 📅 Jan 2025 – Jun 2025

- Designed and developed a full-stack e-commerce platform using MERN Stack.
- Implemented features like user authentication, product catalog, cart, checkout, and order management.
- Built Admin panel and order tracking system for a seamless shopping experience.
- Built a responsive React front-end with reusable components and optimized API calls.
- Ensured scalability, security, and database optimization for handling large product data.

Mern Stack Developer / Intern | [Logic Loomer / Internship]

📍 Mardan, Pakistan | 📅 Aug 2024 – Dec 2024

- Assisted in developing modules of a Luxegentlemen Salon shop online appointment system with admin panel.
- Built responsive React.js front-end components integrated with backend APIs.
- Contributed to a Real Time Collaboration system by implementing CRUD operations, real time chat, simultaneously work with one project and reporting features.
- Gained exposure to Git workflows, debugging, and software deployment.

Projects

- **Web Scraping Automation Tool** (Node.js, Puppeteer, MongoDB): Built scalable scraping pipelines for extracting social links, emails, jobs, news, property, leads and business data with a React.js dashboard for visualization.
- **Skilltrends – AI Jobs Interview Assistant (MERN + OpenAI + Stripe)**: Developed real-time AI-driven interview assistant with chatbot, payment integration, and CI/CD deployment.
- **OnestopCar – E-commerce Store (MERN + TailwindCSS)**: Implemented full e-commerce functionality including authentication, cart, checkout, admin panel, and responsive UI.
- **Chatbot Automation (n8n)**: Automated multi-channel workflows (WhatsApp, Email, CRMs) reducing manual workload by 40% through scalable cloud deployment.
- **Real-time Collaboration Platform (Mern Stack, Quill.js)**: Built a system for co-editing documents and instant messaging with live synchronization, enabling multiple users to collaborate seamlessly with secure authentication.
- **Luxegentlemen Salon (MERN + Online Booking System)**: Designed an online barber salon platform enabling users to book appointments, manage schedules, and choose grooming

services (haircuts, beard trims, shaves) with a professional, user-friendly interface with admin panel.

Education

Bachelor of Science in Software Engineering (BSSE)

Pmas Arid Agriculture University, Rawalpindi, Pakistan — 2026

Certificates & Achievements

- **ServiceNow Fundamentals Certification** – Gained expertise in IT Service Management and workflow automation.
- **Cyber Security Essentials (Nescon)** – Learned core concepts of network security, data protection, and threat prevention.
- **MERN Stack Development Certification** – Built full-stack applications using MongoDB, Express.js, React.js, and Node.js.
- **n8n Workflow Automation Training** – Designed and deployed multi-service automation pipelines integrating CRMs, messaging, and databases.
- **Full Stack Web Development Bootcamp** – Hands-on training covering frontend, backend, databases, REST APIs, and deployment.

Languages

- **English:** Intermediate (Working Proficiency)
- **Urdu:** Native
- **Punjabi:** Native
